

Da oltre 10 anni, Lacus, azienda Italiana, progetta e distribuisce chiusure doccia, uniche nel design, accessibili ad una vasta clientela e destinate a rappresentare, in Italia e nel mondo, l'arredo bagno d'alta scuola Italiana, anticipando ed interpretando i cambiamenti e le abitudini della società contemporanea.

*For more than 10 years, the Italian company **Lacus** has been designing and distributing unique pieces of shower enclosures.*

Sleek by design and widely affordable, Lacus shower enclosures are destined to represent, in Italy as worldwide, the recognizable Italian style and quality, anticipating the changes and evolving habits of the society.

*Seit mehr als 10 Jahren gestaltet und verteilt die Italienischen Firma **Lacus** Duschkabinen, die einzigartig im Design und wirtschaftlich für alle sind.*

Lacus Duschkabinen sind dazu bestimmt, die Badezimmersausstattung der Italienische High School in Italien und in der Welt zu repräsentieren. Lacus Duschkabinen antizipieren und interpretieren die Veränderungen und Gewohnheiten der modernen Gesellschaft.

*Depuis plus d'une décennie, **LACUS**, Société Italienne, réalise et distribue des cabines de douche, d'une conception unique, accessibles à l'ensemble du marché.*

Destinées à représenter, en Italie et dans le monde, la salle de bain haute école Italienne, anticipant et interprétant les changements et les habitudes de la société moderne.

PARETI DOCCIA

Le pareti doccia LACUS sono conformi alle normative introdotte con il regolamento (UE) nr° 305/2011. L'attuazione del suindicato regolamento è garantita dall'applicazione da parte di LACUS della norma armonizzata EN14428:2004 + A1:2008 (pareti doccia - requisiti funzionali e metodi di prova). In particolare la norma richiede la verifica sul prodotto mediante idonee prove delle caratteristiche di pulibilità, resistenza agli urti, resistenza alla corrosione, resistenza agli agenti chimici e alle macchie, resistenza ai cicli umido/secco, durata ai cicli di apertura/chiusura delle ante, stabilità secondo norma ISO7892:1988 e tenuta all'acqua.

Attrezzature e strumenti computerizzati sottopongono i prodotti LACUS ai più severi test di:

DURATA DEI CICLI IN APERTURA/CHIUSURA

La resistenza e la durata delle ante è verificata da un test di apertura e chiusura della durata di 20.000 cicli.

RESISTENZA DEI PROFILI ALLA CORROSIONE

La resistenza della verniciatura sui profili è verificata da una prova denominata "quadrettatura". Per mezzo di lame taglienti si provocano profonde incisioni fra loro perpendicolari sulla superficie del profilo formando un numero stabilito di quadrati: il test è superato solo a condizione che si stacchino al massimo due quadrati.

RESISTENZA DEI PANNELLI IN CRISTALLO AGLI AGENTI CHIMICI ED ALLE MACCHIE

L'inalterabilità della struttura molecolare e dell'aspetto estetico dei cristalli è verificata da una prova di aggressione da parte di un reagente chimico su di un campione di cristallo di 100x100 mm, per circa 2 ore: il test è superato a condizione che, dopo il risciacquo, il campione non presenti alcun deterioramento, macchia o abrasione.

SICUREZZA DELLA CABINA

La sicurezza per l'utilizzatore è garantita da un test che simula l'urto di un corpo umano sulla parete doccia. Un corpo contundente viene lasciato cadere all'interno di ogni singola parete della cabina doccia: il test è superato se le pareti doccia non presentano deterioramenti funzionali che potrebbero causare lesioni all'utilizzatore.

TENUTA ALL'ACQUA

Anche in condizioni estreme di utilizzo, la tenuta delle giunzioni, delle guarnizioni e dei sigillanti è verificata da un test che consiste nel rivolgere getti d'acqua ad alta pressione verso le zone critiche della cabina doccia.

PROVA DI FRAMMENTAZIONE DEI VETRI

La normativa prevede che, in caso di rottura, i frammenti di cristallo siano più piccoli della misura massima consentita al fine di salvaguardare la sicurezza dell'utilizzatore.

SHOWER ENCLOSURES

Shower enclosures by LACUS comply with the norms introduced by UE Regulation No. 305/2011. The implementation of the aforementioned Regulation is met by the application by LACUS of the harmonized Standard No. EN 14428:2004 + A1:2008 (Shower Enclosures – Functional requirements and tests methods). The Standard requires, in particular, the check of the enclosure by means of specific tests about cleaning characteristics, shock resistance, resistance to corrosion, resistance to chemicals and stains, resistance to wet/dry cycles, strength of the doors to opening/closing cycles, stability according to Regulation No. ISO7892:1988 and water tightness.

Equipment and computerized instruments put Lacus products through the severest tests regarding:

OPENING AND CLOSING CYCLES LIFE

The strength and the endurance of the doors are verified by an opening and closing test lasting 20,000 cycles.

PROFILES RESISTANCE TO CORROSION

The painting resistance on the profiles is verified by a test called "grid".

Sharp blades cause deep perpendicular cuts on the profile surface forming a set number of squares.

The test is passed only if not more than two squares come loose.

CRYSTAL PANELS RESISTANCE TO CHEMICALS AND STAINS

The endurance of the molecular structure and the crystals appearance are checked testing a chemical reagent on a 100x100 mm crystal sample for about two hours.

The test is passed only if, after rinsing, the sample shows no deterioration, stain or abrasion.

CABIN SAFETY

The security of the cabin is ensured by a test that simulates the impact of a human body on the shower wall.

A blunt object is dropped inside each wall of the shower unit. The test is passed only if the shower walls do not show functional deterioration which can cause damages to the user.

WATER TIGHTNESS

Even under extreme conditions of use, the seal of the joints, the gaskets and the sealants is verified by a test that consists in directing high-pressure jets of water at the critical areas of the shower unit.

GLASSES FRAGMENTATION TEST

The rule stipulates that, in case of breakage, the crystal fragments are smaller than the maximum allowed extent so as to guarantee the security of the user.

ECK-DUSCHKABINE

Die Dusch-Kabinen von LACUS entsprechen die Normen der EU-Verordnung Nummer 305/2011. Von Lacus wird die Durchführung der o.g. Verordnung durch die Anwendung der harmonisierten Norm EN 14428 Nummer. : 2004 + A1: 2008 (Duschkabinen - Funktionsanforderungen und Prüfverfahren) versichert. Insbesondere verlangt der Standard die Überprüfung der Kabinen durch spezifischen Tests zu Reinigungseigenschaften , Stoßfestigkeit, Korrosionsbeständigkeit , Beständigkeit gegen chemische Mittel und Flecken , Beständigkeit gegen Nass- / Trocken -Zyklen , Beständigkeit der Türen gegen Öffnen / Schließen -Zyklen, Stabilität nach der Regelung Nummer ISO7892: 1988 und Wasserdichtigkeit.

Mithilfe geeigneter Werkzeuge und computerisierter Instrumente unterziehen wir die LACUS Produkte strengsten Tests auf folgende Eigenschaften:

BESTÄNDIGKEIT DER TÜREN

Die Belastbarkeit und Langlebigkeit der Türen wird durch 20.000 Zyklen öffnen und schließen derselben getestet.

KORROSIONRESISTENZ DER PROFILE

Die Widerstandsfähigkeit der Lackierung auf den Profilen wird durch einen Test erprobt, der sich „Quadratierung“ nennt.

Mithilfe scharfer Klingen werden tiefe, zueinander rechtwinklig stehende Schnitte in die Profile geritzt, welche eine vorgegebene Anzahl von Quadraten bilden: der Test gilt als bestanden, wenn sich maximal zwei Quadrate lösen.

BESTÄNDIGKEIT DER KRISTALLGLASWÄNDE GEGEN CHEMISCHE MITTEL UND FLECKEN

Die Unveränderlichkeit der Molekularstruktur und des ästhetischen Aspekts der Glasscheiben wird erprobt mithilfe eines chemischen Reaktionsmittels, welches für 2 Stunden auf einem Muster der Größe 100x100 mm belassen wird: der Test gilt als bestanden, wenn nach dem Abspülen des Mittels keinerlei Verschleiß, Flecke oder Schmirgelspuren vorhanden sind.

SICHERHEIT DER KABINE

Die Sicherheit des Benutzers ist garantiert durch einen Test, der den Aufprall eines menschlichen Körpers auf eine Duschwand simuliert. Ein Schlagkörper wird gegen jede einzelne Wand der Duschkabine fallen gelassen: der Test gilt als bestanden, wenn die Duschwände keine funktionellen Beschädigungen aufweisen, die dem Benutzer Verletzungen zufügen könnten.

WASSERDICHTHEIT

Auch unter extremen Benutzungsbedingungen ist die Dichtheit der Verbindungsstücke, der Dichtungen und der Fugen nachgewiesen, durch einen Test, bei dem ein Hochdruckwasserstrahl auf die kritischen Bereiche der Duschkabine gerichtet wird.

SPLITTERTEST DER SICHERHEITSGLASSCHEIBEN

Die Norm sieht vor, daß, im Fall vom Bruch, die Bruchstücke kleiner als die maximal zugelassene Größe sein müssen, um die Sicherheit des Benutzers zu garantieren.

CABINE DE DOUCHE

Les parois de douche LACUS respectent les normes introduites par le règlement européen n° 305/2011. La mise en œuvre du règlement précité est assurée par l'application de la part de LACUS de la norme harmonisée EN 14428 no: 2004 + A1: 2008 (cabines de douche - exigences fonctionnelles et méthodes d'essai). La norme exige, en particulier, la vérification de la cabine au moyen de tests spécifiques sur les caractéristiques de nettoyage, résistance aux chocs, résistance à la corrosion, résistance aux produits chimiques et aux taches, résistance à des cycles sec/mouillé, résistance des volets à des cycles d'ouverture / fermeture, la stabilité conformément au Règlement no ISO7892: 1988 et l'étanchéité à l'eau.

Les équipements et les instruments informatiques soumettent les produits Lacus aux tests les plus sévères de:

DUREE DES CYCLES OUVERTURE/FERMETURE

La résistance et la durée des volets sont vérifiées par un test de 20.000 cycles ouverture/fermeture.

RESISTANCE DES PROFILES A LA CORROSION

La résistance de la peinture des profilés est vérifiée par un test appelé: Quadrillage. Avec des lames coupantes on va faire des incisions profondes et perpendiculaires les unes aux autres sur le revêtement formant un nombre prédéterminé de carrés. Le test est validé à la seule condition que "au maximum" 2 carrés se détachent.

RESISTANCE DES PANNEAUX DE VERRE AUX AGENTS CHIMIQUES ET AUX TACHES

La conservation de la structure moléculaire et de l'aspect esthétique des verres est vérifiée par l'essai d'agression. Sur un échantillon de verre de 100x100 mm on va mettre un réactif chimique pendant à peu près 2 heures: le test est validé si, après le rinçage, l'échantillon ne présente ni détérioration, ni tache, ni abrasion.

SECURITE DE LA CABINE

La sécurité pour l'utilisateur est garantie par un test qui simule le choc d'un corps humain sur la paroi de la douche. Un corps contondant est laissé tomber à l'intérieur de chaque paroi de la cabine douche : le test est validé si les parois de la douche ne présentent aucune détérioration fonctionnelle qui pourrait causer des lésions à l'utilisateur.

ETANCHEITE

Même en conditions extrêmes d'utilisation, l'étanchéité est vérifiée par un test qui consiste à diriger des jets d'eau à haute pression vers les zones critiques de la cabine douche.

TEST DE FRAGMENTATION DES VERRES

La réglementation prévoit que, en cas de rupture, les fragments de verre soient plus petits que la mesure maximale prévue afin de sauvegarder la sécurité de l'utilisateur.

OWNER COMPANIES

| | |
|--|--|
| | Inda the story of a successful Italian company driven by a true entrepreneurial spirit. Inda is an industrial group with a well established leadership in the international markets, 70 years of experience dedicated to the support of the customers, the expertise of Inda is based on a deep competence to learn and to understand the needs and the tastes of the diverse markets which change and evolve continuously. Creativity, originality and distinctive elegance are elements which identify and express the design of Inda. |
| | Established in 2008, Lacus has its headquarters in Sassuolo Modena. Lacus designs its own range of shower enclosures, standing out for innovative solutions, with international patents such as Quick Installation in 2014 and Capri in 2018. Harmony, Emotion and Innovation are LACUS' designers' targets. In the context of the Customer Satisfaction Program, LACUS introduced "Shop on-line" and now, the retail customers can connect anytime and anywhere in order to check availabilities and place orders. |
| | The Novellini Group is European leader in the production of shower enclosures, complete cubicles and whirlpool baths, with plants in Italy and France, branch offices in major European countries and sales offices around the world. Family values underlie and steer the Novellini family business. Generation after generation, Passion and commitment, innovation and creativity, as well as a relentless attention to the customer needs, these are the values Novellini pursues. |
| | Megius, since 1976, has been producing and promoting unique shower solutions that are affordable to anyone, designed to represent the Italian high school bathroom furniture in bathrooms in Italy and around the world. In more recent times it has also been synonymous with a wellness product, as the feeling of feeling good at home and in spaces outside of your home is increasingly widespread. |

OWNER COMPANIES

| | |
|--|---|
| | RARE was born in 1965 in Calate, Varese, northern Italy. In 1983, thanks to the founder, Renato Ravarino, RARE began producing shower enclosures, introducing four fundamental elements: design, quality, functionality and safety. In 2015, RARE becomes the Quality Management System (UNI EN ISO 9001). Uses the best and eco-compatible materials: aluminum, glass, steel, 100% recyclable. The shower enclosures are CE marked, according to the UNI EN 14428: 2015 directive. |
| | With over 250 employees, 55,000 square meters of production facilities spread over 4 sites, which generate a production capacity of 2,000 shower cabins per day, the Samo Group is recognized as a leading player in the sector. In Italy, Samo is a widespread distribution, secured by virtue of a branch structure in France, Spain and distributors that expand their presence around the world. All our products are designed, processed and assembled in our factory in Bussanigo (VR) while the glass sheets are produced in our glass factory in Poggiana (BO). |
| | Vismarvetro is a leading Italian company, specialized in the integrated production of tempered glass shower enclosures, with standard and at the same time flexible and customized products. Vismarvetro is the only Italian manufacturer of shower enclosures that combines also glass production. Thanks to the historical and continuous experience, Vismarvetro is able to respect its customer requests. The company is therefore specialized in the production of both conventional high quantities and individual orders. |

OWNER COMPANIES

| | |
|--|--|
| | Arblu, present on the market since 1986, has a dynamic and creative 100% experience in the production of bathroom and kitchen products. A real focus on innovation and attention to the real living dynamics. Through its wide range of products, Arblu today represents the Made in Italy solution for the needs of harmony and well-being of the contemporary bathroom. |
| | Calibe, close to Bologna, is well established in the district where Italian engineering skills exist. Each product, along with the made in Italy values, bears the company's design philosophy. |
| | Our slogan "shower emotion" is the heart of our activities: individual tailor-made projects, high quality raw materials and innovative technological lines merged all along the beginning. Products that represent the integration of comfort and versatility, practical and elegant, sturdy and functional. We offer solutions for the home and various types of glass on site to highlight the characteristics of the shower enclosure. We carry out "shower emotion". |

Chiusure Doccia

Shower Enclosures - Duschkabinen - Cabines de douche

- **ALLUMINIO E ACCIAIO INOX 304**

I profili di alluminio sono realizzati con materie prime di altissima qualità. Ogni singolo profilo è preventivamente tagliato e forato, permettendo così ai successivi trattamenti di coprire ogni parte del pezzo, garantendo una qualità duratura nel tempo. La verniciatura viene effettuata attraverso impianti tecnologici all'avanguardia; ogni profilo subisce un pretrattamento di sgrassaggio e fosfocromatazione prima di essere verniciato con polveri epossidiche le quali, applicate elettrostaticamente su tutta la superficie del profilo, polimerizzano formando uno strato resistente ed inalterabile nel tempo. Brillantatura e satinatura sono ottenute a mezzo di processi chimici preceduti da accurata spazzolatura dei profili per renderli resistenti e duraturi nel tempo.

- **CRISTALLO**

Il cristallo LACUS è trattato con sistema di temperatura per aumentare la resistenza e garantire il più alto grado di sicurezza tecnologicamente raggiungibile. In caso di accidentale rottura, la lastra si sbriciola in piccolissimi frammenti inoffensivi.

- **ALUMINIUM AND STAINLESS STEEL 304**

The aluminum profiles are made with high quality raw materials. Each profile is cut and drilled in advance so as to allow the subsequent treatments to cover every part of the item ensuring lasting quality over time. The painting is carried out in leading high tech plants. Each profile undergoes, before being coated with epoxy powders, a degreasing and phosphocromatizing pre-treatment by which the powder covers electrostatically the whole surface of the profile and polymerizes thus forming a resistant and unalterable layer. Resistant and lasting shiny and/or satin finish are obtained by means of chemical processes preceded by a careful brushing of the profiles.

- **CRYSTAL**

Lacus crystal is treated with a tempering system in order to increase the resistance and guarantee the highest security level technologically attainable. In case of accidental breakage, the sheet crumbles into tiny harmless fragments.

- **ALUMINIUM UND EDELSTAHL 304**

Die Aluminiumprofile sind aus Grundstoffen allerhöchster Qualität gefertigt. Jedes einzelne Profil wird im Voraus geschnitten und gebohrt, um bei den darauffolgenden Behandlungen jede Fläche des Stücks bedecken zu können; dieses Verfahren garantiert eine langlebige Qualität. Die Lackierung wird mittels Anlagen, die auf dem neuesten technologischen Stand sind, vorgenommen; jedes Profil erfährt eine Vorbehandlung durch Entfettung und Phosphocromatisierung, bevor es mit Epoxid-Pulvern beschichtet wird, welche elektrostatisch auf die gesamte Oberfläche des Profils aufgetragen werden und dadurch polymerisieren, und sich so zu einer widerstandsfähigen und langlebigen Schicht verdichten. Politur und Satinierung werden durch chemische Prozesse erzielt, denen eine akkurate Bürstung vorausgeht, womit die Profile widerstandsfähig und langlebig gemacht werden.

- **KRISTALLGLAS**

Das Kristallglas von Lacus wird mit einem Prozess der Temperatur behandelt, um den Widerstand zu vergrößern und den höchsten erreichbaren Sicherheitsgrad technologisch zu garantieren. Im Falle zufälligen Zerbreches zerkrümelt sich die Kristallglasscheibe in zwerghaften harmlosen Bruchstücken.

- **ALUMINIUM ET ACIER INOXYDABLE 304**

Les profilés sont fabriqués avec des matières premières de très grande qualité. Chaque profilé est d'abord coupé et troué, ce qui permet aux traitements successifs de couvrir entièrement la pièce, garantissant une qualité durable. Le vernissage est effectué par une installation technologique d'avant-garde; chaque profilé subit un prétraitement de dégraissage et de phosphochromage avant d'être verni avec des poudres époxydiques qui, appliquées électrostatiquement sur toute la surface, polymérisent formant un revêtement résistant et inaltérable. Le lustre et le satinage sont obtenus par procédés chimiques précédés par un brossage minutieux des profilés pour les rendre résistants et durables.

- **VERRE**

Le verre LACUS est traité avec un système de trempe thermique pour augmenter la résistance et garantir le plus haut degré de sécurité réalisable technologiquement. En cas de rupture accidentelle, la plaque se brise en morceaux minuscules et inoffensifs.

Piatti Doccia Shower trays - Duschtassen - Receveurs

MARFIL / SLATE EVO / BRECCIA / PETRA:

- Piatti doccia Marfil, Slate Evo, Breccia, Petra sono realizzati in polvere di marmo, carbonato di calcio, quarzo e resina, il corpo del piatto doccia è colorato in pasta.
- *Marfil, Slate Evo/Breccia/Petra shower trays are made of marble powder, calcium carbonate, quartz and resin. Body is colored.*
- *Marfil, Slate Evo/Breccia/Petra Duschtassen sind aus Marmorpulver, Kalziumcarbonat, Quarz und Harz. Ihre Körper ist farbig.*
- *Les receveurs „Marfil, Slate Evo-Breccia-Petra“ sont fabriqués en poudre de marbre, carbonate de calcium, quartz et résine. Ils sont colorés dans la masse.*

LIMESTONE:

- I piatti doccia Limestone sono realizzati in polvere di marmo, carbonato di calcio, quarzo e resina.
- *The shower trays Limestone are made of marble powder, calcium carbonate, quartz and resin*
- *Die Limestone Duschtassen sind aus Marmorpulver, Kalziumkarbonat, Quarz und Harz hergestellt.*
- *Les receveurs sont fabriqués en poudre de marbre, carbonate de calcium, quartz et résine.*

WHITE SILK / BLACK SILK / STONELITE:

- Realizzato in carbonato di calcio e resina poliestere insatura. La superficie in gel coat è antiscivolo.
- *Made of calcium carbonate and unsaturated polyester resin. The gelcoat surface is anti slip.*
- *Aus Kalziumkarbonat und ungesättigten Polyesterharzen hergestellt. Die Oberfläche aus Gelcoat ist rutschfest.*
- *Fabriqué en carbonate de calcium et résine polyester insaturée. La surface en gel coat est antidérapante.*

SLIM:

- Realizzato in SMC (Vetroresina) composto da fibre di vetro, cariche minerali, pigmenti e resine poliesteri insature.
- *Made of fiberglass (SMC), consisting of glass fibers, minerals fillers, pigments and unsaturated polyester resins.*
- *Aus Kunststoff (SMC) aus Glasfasern, mineralischen Füllstoffen, Pigmenten und ungesättigten Polyesterharzen hergestellt.*
- *Fabriqué avec des résines polyester (SMC), des fibres de verre, des charges minérales, des pigments et des résines polyester insaturées.*

HINGE - SCHARNIER - CHARNIÈRE

CARATTERISTICHE GENERALI

- Cristallo temperato da 8 mm.
- Finitura trasparente.
- Profilo in alluminio cromo lucido e nero satinato.
- Chiusura magnetica delle ante.
- Chiusura ad anta battente.
- Estensione da 1 cm.
- Maniglie e cerniere zama.
- Trattamento anticalcare.

GENERAL FEATURES

- 8 mm tempered safety crystal.
- Transparent.
- Polished or black satin aluminium profile.
- Magnetic waterproof closure.
- Outwards/inwards opening version.
- Extension 1 cm.
- Handles and Hinge made of zinc alloy.
- Descaling.

ALLGEMEINE SPEZIFIKATIONEN

- Sekurirkristallglas 8 mm stark.
- Kristallglasfinish: Transparent.
- Poliertes Chrom- oder Schwarz-satiniertes Profil.
- Wasserdichtes Magnetverschluss der Türen.
- Drehtüren.
- Streckbarkeit 1 cm.
- Griff und Scharnier aus Zamak.
- Entkalkungsbehandlung.

SPECIFICATIONS GENERALES

- Verre trempé 8 mm.
- Finition du verre: transparent.
- Profilé en aluminium chromé et noir satiné.
- Portes à fermeture magnétique.
- Ouverture pivotante.
- Extensibilité de 1 cm.
- Poignées et charnières en zamak.
- Traitement anticalcare.

CARATTERISTICHE GENERALI

- Cristallo temperato da 6 mm.
- Finitura trasparente.
- Profilo in alluminio nero satinato.
- Chiusura magnetica delle ante.
- Chiusura ad anta battente.
- Estensione da 1,5 cm.
- Maniglia in alluminio.

GENERAL FEATURES

- 6 mm tempered safety crystal.
- Transparent crystal.
- Polished aluminum black satin profile.
- Magnetic waterproof closure.
- Outwards/inwards opening.
- Extension 1,5 cm.
- Handle made of aluminium.

ALLGEMEINE SPEZIFIKATIONEN

- Sekurirkristallglas 6 mm stark.
- Kristallglasfinish: Transparent.
- Schwarzes satiniertes Aluminium Profil.
- Wasserdichtes Magnetverschluß der Türen.
- Drehtür.
- Streckbarkeit 1,5 cm.
- Griff aus Aluminium.

SPECIFICATIONS GENERALES

- Verre trempé 6 mm.
- Finition du verre: transparent.
- Profilé en aluminium noir satiné.
- Portes à fermeture magnétique.
- Ouverture pivotante.
- Extensibilité de 1,5 cm.
- Poignée en aluminium.

CARATTERISTICHE GENERALI

- Cristallo temperato da 6 mm.
- Finitura trasparente.
- Profilo in alluminio cromo lucido, laccato nero satinato e bianco satinato.
- Chiusura magnetica delle ante.
- Chiusura ad anta battente.
- Estensione da 1,5 cm.
- Maniglie e cerniere in zama.

GENERAL FEATURES

- 6 mm tempered safety crystal.
- Transparent crystal.
- Polished aluminum and black and white satin profile.
- Magnetic waterproof closure.
- Outwards opening.
- Extension 1,5 cm.
- Handles and hinges made of zinc alloy.

ALLGEMEINE SPEZIFIKATIONEN

- Sekuritkristallglas 6 mm stark.
- Kristallglasfinish: Transparent.
- Poliertes Chrom- und Schwarz- oder Weiß-satiniertes Profil.
- Wasserdichtes.
- Magnetverschluss der Türen.
- Drehtür.
- Streckbarkeit 1,5 cm.
- Griff und Scharnier aus Zamak.

SPECIFICATIONS GENERALES

- Verre trempé 6 mm.
- Finition du verre: transparent.
- Profilé en aluminium chromé, blanc et noir satiné.
- Portes à fermeture magnétique.
- Ouverture pivotante.
- Extensibilité de 1,5 cm.
- Poignées et charnières en zamak.

MANIGLIA
HANDLE - GRIFF - POIGNÉE

CARATTERISTICHE GENERALI

- Cristallo temperato da 6 mm.
- Finitura trasparente.
- Profilo in alluminio cromo lucido.
- Chiusura magnetica delle ante.
- Chiusura ad anta battente.
- Estensione da 2 a 10 cm.
- Maniglia in acciaio e cerniere in zama.

GENERAL FEATURES

- 6 mm tempered safety crystal.
- Transparent crystal.
- Polished aluminum profile.
- Magnetic waterproof closure.
- Outwards opening.
- Extension from 2 to 10 cm.
- Handle made of stainless steel and Hinge made of zinc alloy.

ALLGEMEINE SPEZIFIKATIONEN

- Sekurirkristallglas 6 mm stark.
- Kristallglasfinish: Transparent.
- Poliertes Chrom Profil.
- Magnetverschluss der Türen.
- Drehtür.
- Streckbarkeit von 2 bis 10 cm.
- Griff aus Rostfreie und Scharnier aus Zamak.

SPECIFICATIONS GENERALES

- Verre trempé 6 mm.
- Finition du verre: transparent.
- Profilé en aluminium chromé.
- Portes à fermeture magnétique.
- Ouverture pivotante.
- Extensibilité de 2 à 10 cm.
- Poignée en acier et charnière en zamak.

CARATTERISTICHE GENERALI

- Cristallo temperato da 6 mm.
- Finitura trasparente, grey e piumato.
- Profilo in alluminio cromo lucido, laccato nero satinato.
- Chiusura magnetica delle ante.
- Chiusura ad anta battente.
- Estensione 2 cm.
- Maniglie in alluminio, cerniere in zama.

GENERAL FEATURES

- 6 mm tempered safety crystal.
- Transparent, gray, fox.
- Polished aluminum and black satin profile.
- Magnetic waterproof closure.
- Outwards/inwards opening.
- Extension 2 cm.
- Handles made of aluminum, hinge of zamak.

ALLGEMEINE SPEZIFIKATIONEN

- Sekurirkristallglas 6 mm stark.
- Kristallglasfinish: Transparent, Grau, Fox.
- Poliertes Chrom- und Schwarz-satiniertes Profil.
- Magnetverschluss der Türen.
- Drehtür.
- Streckbarkeit 2 cm.
- Griff aus Aluminium, Scharnier aus Zamak.

SPECIFICATIONS GENERALES

- Verre trempé 6 mm.
- Finition du verre: transparent, fumé ou imprimé.
- Profilé en aluminium chromé, blanc et noir satiné.
- Portes à fermeture magnétique.
- Ouverture pivotante.
- Extensibilité 2 cm.
- Poignées et charnières en aluminium, laiton et zinc.

CARATTERISTICHE GENERALI

- Cristallo temperato da 8 mm.
- Finitura trasparente.
- Profilo alluminio cromo lucido.
- Estensione da 1,5 cm.
- Soft closing.
- Maniglia in alluminio.
- Trattamento anticalcare.

GENERAL FEATURES

- Tempered crystal 8 mm.
- Transparent crystal.
- Chrome aluminum profile.
- Wall profile adjustment 1,5 cm.
- Sliding soft closing.
- Handle in aluminium.
- Descaling.

ALLGEMEINE SPEZIFIKATIONEN

- Sekurirkristallglas 8 mm stark.
- Kristallglasfinish: Transparent.
- Verchromt-Aluminium Profil.
- Streckbarkeit 1,5 cm.
- Selbstschliessende Schiebetür.
- Griff aus Aluminium.
- Entkalkungsbehandlung.

SPECIFICATIONS GENERALES

- Verre trempé 8 mm.
- Finition du verre: transparent.
- Profilé en aluminium chromé.
- Extensibilité 1,5 cm.
- Fermeture de la porte coulissante en douceur (soft closing).
- Poignée en aluminium.
- Traitement anticalcare.

CARATTERISTICHE GENERALI

- Cristallo temperato da 8 mm.
- Finitura trasparente.
- Profilo alluminio cromo lucido.
- Chiusura magnetica delle ante.
- Sistema di sgancio rapido
- Estensione da 1,5 cm.
- Pomolo in ottone cromato.
- Trattamento anticalcare.

GENERAL FEATURES

- Tempered crystal 8 mm.
- Transparent - crystal.
- Chrome aluminum profile.
- Magnetic waterproof closure.
- Opening clips.
- Wall profile adjustment 1,5 cm.
- Chromed brass knob.
- Descaling.

ALLGEMEINE SPEZIFIKATIONEN

- Sekurirkristallglas 8 mm stark.
- Kristallglasfinish: Transparent.
- Verchromt-Aluminium Profil.
- Magnetverschluss.
- Lösbare Tür.
- Streckbarkeit 1,5 cm.
- Griff aus verchromtem Messing.
- Entkalkungsbehandlung.

SPECIFICATIONS GENERALES

- Verre trempé 8 mm.
- Finition du verre: transparent.
- Profilé en aluminium chromé.
- Portes à fermeture magnétique.
- Porte déclipantes.
- Extensibilité 1,5 cm.
- Poignées en laiton chromé.
- Traitement anticalcare.

CARATTERISTICHE GENERALI GENERAL CHARACTERISTICS TECHNISCHE MERKMALE SPECIFICATIONS GENERALES

- Cristallo temperato da 6 mm.
- Finitura trasparente.
- Profilo in alluminio cromo lucido, laccato nero satinato, bianco satinato e oro rosa.
- Chiusura magnetica delle ante.
- Sistema di sgancio rapido.
- Estensione profilo a muro 1,5 cm.
- Maniglia in alluminio.
- Tempered crystal from 6 mm.
- Transparent.
- Chrome aluminum, black, white or rose gold profile.
- Magnetic waterproof clousure.
- Opening clip for easy cleaning.
- Wall profile adjustment 1,5 cm.
- Aluminium handle.
- Sekuritkristallglas 6 mm stark.
- Kristallglasfinish: Transparent.
- Poliertes Chrom- schwarz- weiß-rosè gold Profil.
- Magnetverschluss.
- Lösbare Tür zur Kristallreinigung.
- Streckbarket 1,5 cm.
- Griff aus aluminium.
- Verre trempé de 6 mm.
- Finition du verre: transparent.
- Profilé en aluminium chromé, noir satiné et blanc satiné et or rosé.
- Portes à fermeture magnétique.
- Portes déclipantes dans la partie basse pour le nettoyage du verre.
- Extensibilité 1,5 cm.
- Poignée en aluminium.

DETTAGLI & CARATTERISTICHE

ASINARA / PIANA
PROFILO INFERIORE
BOTTOM PROFILE - UNTERES PROFIL - PROFILÉ INFÉRIEUR

MANIGLIA ASINARA/PIANA
HANDLE - GRIFF - POIGNÉE

CARATTERISTICHE GENERALI

- Cristallo temperato da 6mm.
- Finitura trasparente.
- Profilo in alluminio cromo lucido.
- Chiusura magnetica delle ante.
- Estensione 2 cm.
- Soft Closing.
- Maniglie in ottone cromato.

GENERAL CHARACTERISTICS

- Tempered crystal 6 mm.
- Transparent.
- Chrome aluminum profile.
- Magnetic waterproof clousure.
- Wall profile adjustment 2 cm.
- Soft closing.
- Handles in chromed brass.

TECHNISCHE MERKMALE

- Sekurirkristallglas 6 mm stark.
- Kristallglasfinish: Transparen.
- Poliertes Chrom Profil.
- Magnetverschluss.
- Streckbarkeit 2 cm.
- Selbstschliessende Schiebetür.
- Griff aus verchromtem Messing.

SPECIFICATIONS GENERALES

- Verre trempé de 6 mm.
- Finition du verre: transparent.
- Profilé en aluminium chromé.
- Portes à fermeture magnétique.
- Fermeture de la porte coulissante en douceur.
- Extensibilité de 2 cm.
- Poignées en laiton chromé.

VULCANO EVO / LIPARI EVO / STROMBOLI EVO
MANIGLIA - Handle - Griff - Poignée

VULCANO EVO
CORNER - Corner - Eckprofil - Profilé d'angle

CARATTERISTICHE GENERALI

- Cristallo temperato da 6 mm.
- Finitura trasparente, satinato, piumato.
- Profilo in alluminio cromo o laccato nero satinato.
- Chiusura magnetica delle ante.
- Doppia Clips a sgancio per la pulizia dei cristalli.
- Estensione da 1,5 cm.
- Maniglia in zama.

GENERAL CHARACTERISTICS

- Tempered crystal 6 mm.
- Transparent - matt - fox.
- Chrome aluminum, black satin profile.
- Magnetic waterproof clousure.
- Double opening clips for easy cleaning.
- Wall profile adjustment 1,5 cm.
- Handles made of zinc alloy.

TECHNISCHE MERKMALE

- Sekurirkristallglas 6 mm stark.
- Kristallglasfinish: Transparent, matt, fox.
- Poliertes Chrom- und schwarz-satiniertes Profil.
- Magnetverschluss.
- Lösbare Tür zur Kristallreinigung.
- Streckbarkeit 1,5 cm.
- Griff aus Zamak.

SPECIFICATIONS GENERALES

- Verre trempé de 6 mm.
- Finition du verre: transparent, mat, granité.
- Profilé en aluminium chromé, noir satiné.
- Portes à fermeture magnétique.
- Portes déclipantes dans la partie basse pour le nettoyage du verre.
- Extensibilité de 1,5 cm.
- Poignées en zamak.

CARATTERISTICHE GENERALI

- Cristallo temperato da 6 mm.
- Finitura trasparente, satinato, piumato.
- Profilo in alluminio cromo.
- Chiusura magnetica delle ante.
- Doppia Clips a sgancio per la pulizia dei cristalli.
- Estensione da 2 cm.
- Maniglie in acciaio inox.

GENERAL CHARACTERISTICS

- Tempered crystal 6 mm.
- Transparent - matt - fox.
- Chrome aluminum profile.
- Magnetic waterproof closure.
- Double opening clips for easy cleaning.
- Wall profile adjustment 2 cm.
- Handle made of stainless steel.

TECHNISCHE MERKMALE

- Sekuritkristallglas 6 mm stark.
- Kristallglasfinish: Transparent, matt, fox.
- Poliertes Chrom Profil.
- Magnetverschluss.
- Lösbare Tür zur Kristallreinigung.
- Streckbarkeit 2 cm.
- Griff aus Rostfreie Stahl.

SPECIFICATIONS GENERALES

- Verre trempé de 6 mm.
- Finition du verre: transparent, mat, granité.
- Profilé en aluminium chromé.
- Portes à fermeture magnétique.
- Portes déclipantes dans la partie basse pour le nettoyage du verre.
- Extensibilité de 2 cm.
- Poignée en acier.

CARATTERISTICHE GENERALI

- I piatti doccia Marfil sono realizzati in polvere di marmo, carbonato di calcio, quarzo e resina.
- Il corpo del piatto è colorato in pasta.
- Spessore 3 cm.
- Piletta di scarico e copripiletta in dotazione (36 L/Min).
- Superficie strutturata e antiscivolo.
- Possibilità di taglio.
- Disponibile Kit di riparazione colore.

GENERAL CHARACTERISTICS

- The shower trays Marfil are made of marble powder, calcium carbonate, quartz and resin.
- The body of the shower tray is colored.
- Thickness of 3 cm.
- Drain and drain cover included (36 liter/minute).
- Antislip texture.
- Possible to cut.
- Available colour repair kit.

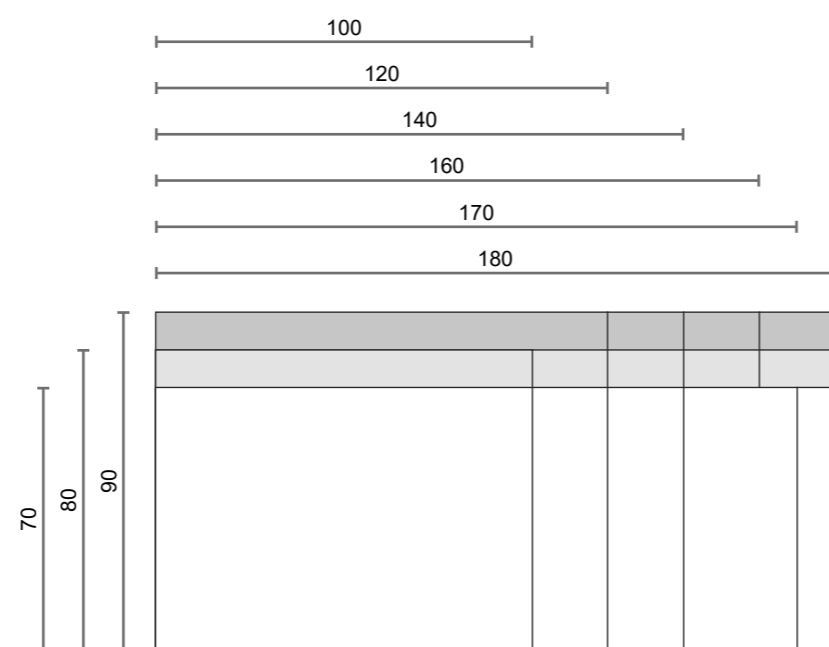

ALLGEMEINE EIGENSCHAFTEN

- Aus Marmorpulver, Kalziumkarbonat, Quarz und Harz hergestellt.
- Der Körper der Duschtassen ist farbig.
- Stärke 3 cm.
- Ab- und Überlaufgarnitur im Preis inbegriffen (36 L/Minute).
- Rutschfeste strukturierte Oberfläche.
- Kürzbar
- Reparaturkit der Farbe vorhanden

SPECIFICATIONS GENERALES

- Les receveurs sont fabriqués en poudre de marbre, carbonate de calcium, quartz et résine.
- Ils sont colorés dans la masse.
- Épaisseur 3 cm.
- Bonde (436 l/min) et grille d'évacuation incluses.
- Texture antidérapante.
- Découpable.
- Kit correction de couleur disponible.

Altezza: 10 cm. - Height: 10 cm. - Höhe: 10 Cm. - Hauteur: 10 cm.

Rimuovere la pellicola protettiva di plastica dalla zona vicino lo scarico e dai lati del piatto che batteranno a muro. Posizionare lo scarico doccia. Tutti i piedini dovrebbero essere regolati ad un'altezza di 100mm.
Remove protective plastic film from the areas near waste and those sides of the tray which will be against the wall. Fit the shower tray waste. All feet should be adjusted to 100mm.

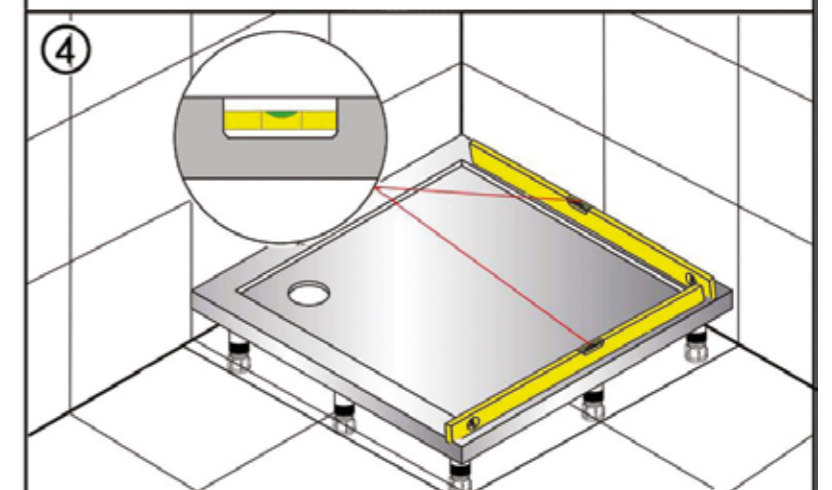

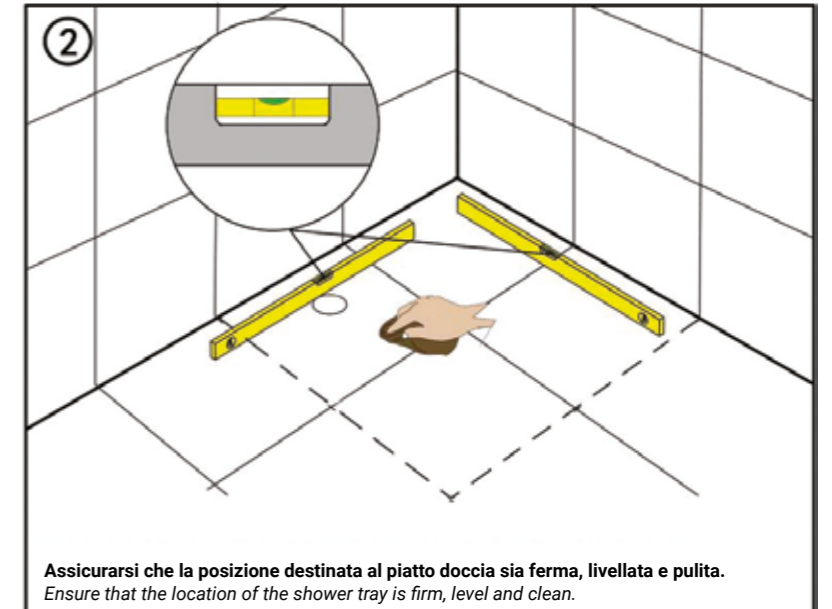

Porre un peso di 50 kg sul piatto doccia e lasciarlo inutilizzato per 24 ore.
Level the tray and allow to set for 24 hours.

2) Stellen Sie sicher, dass die Lage der Duschtasse fest, eben und sauber ist.
Assurez-vous que la place pour le receveur soit ferme, plane et propre.

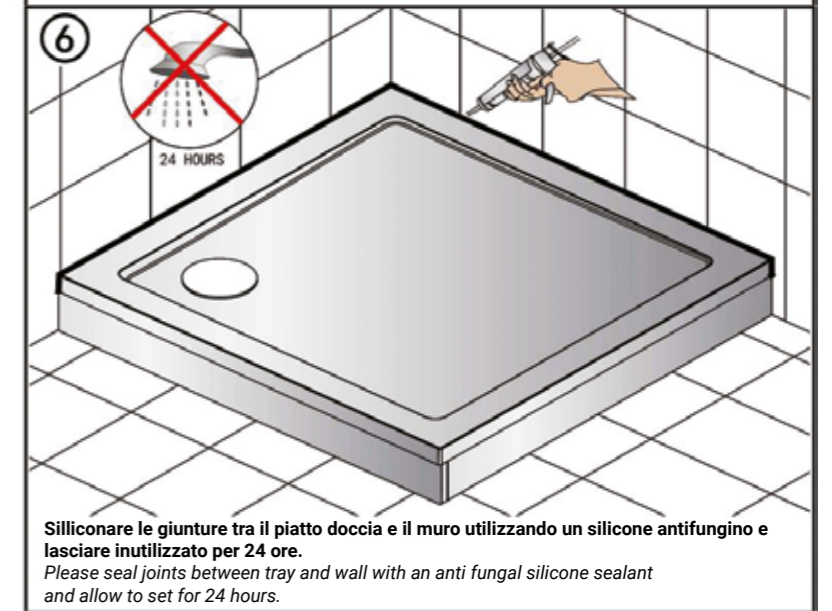

3) Entfernen Sie die Schutzfolie aus dem Auspuff und von den Mauerseiten. Legen Sie den Ablauf ein. Die "Füße" sollten bis zu einer Höhe von 100 mm eingestellt werden.
Retirez le film protecteur autour de l'évacuation et sur les côtés du receveur qui seront contre le mur. Insérez la bonde. Réglez les pieds à une hauteur de 100 mm.

4) Setzen Sie die Tasse in Position und heben Sie beide Seiten mit den Füßen. Planieren Sie die Tasse und die Füße. Kleben Sie die Füße auf den Boden mit Silikon.
Mettez le receveur en place et surélevez les deux côtés avec les pieds. Nivelez le receveur et les pieds. Collez les pieds sur le sol avec de la silicone.

Assicurarsi che la posizione destinata al piatto doccia sia ferma, livellata e pulita.
Ensure that the location of the shower tray is firm, level and clean.

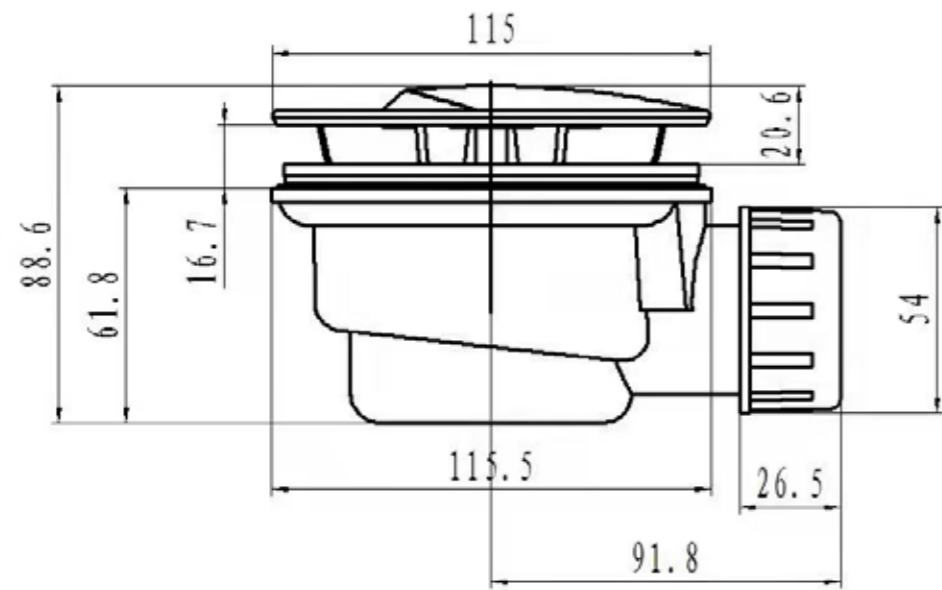

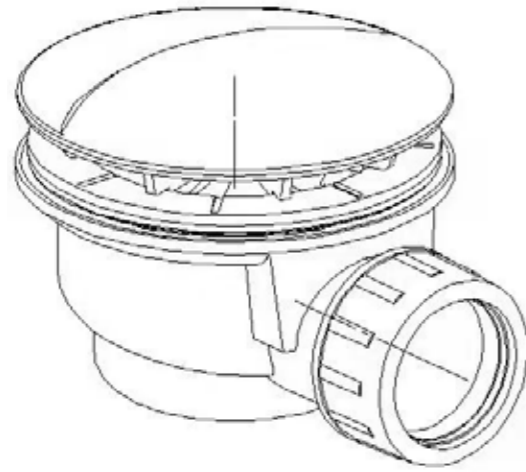

Mettere il piatto in posizione e sollevare entrambi i lati usando i piedini. Livellare piatto e piedini. Una volta finito incollare i piedini al pavimento con del silicone sigillante.
Place the tray into position and set on level both ways using the feet. After the tray has been leveled adjust all the inner feet to stabilize the tray. When on level, fix the feet to the floor with silicon sealant.

Siliconare le giunture tra il piatto doccia e il muro utilizzando un silicone antifungino e lasciarlo inutilizzato per 24 ore.
Please seal joints between tray and wall with an anti fungal silicone sealant and allow to set for 24 hours.

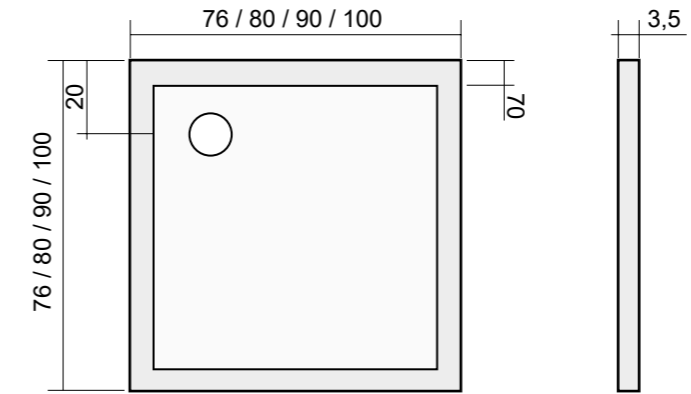

5) Legen Sie ein Gewicht von 50 kg für 24 Stunden auf die Duschtasse.
Placez un poids de 50 kg sur le receveur et laissez-le stabiliser pendant 24 heures.

6) Benutzen Sie antimykotische Silikon zwischen Duschtasse und Wand und lassen Sie für 24 Stunden.
Appliquez de la silicone antimoisissure sur les joints entre le receveur de douche et le mur et laissez sécher pendant 24 heures.

DUSCHPANEELE UND DUSCHSÄULE

COLONNES DE DOUCHE

CARATTERISTICHE GENERALI

- Realizzati interamente in Acciaio Inox 304, Alluminio e Ottone cromato 800/1000.
- Superfici cromate, spazzolate e laccate.
- Predisposizione per collegamento alla rete idrica.
- Pressione ottimale 2,5 bar.
- Nessun ausilio di pompe idriche.
- Spessori da 1,2 a 4 mm.
- Doccetta a mano con flessibile.

GENERAL CHARACTERISTICS

- Made entirely of stainless steel 304, aluminium and brass 800/1000.
- Chrome, brushed burnished, lacquered.
- Ready for water supply connection.
- Optimal pressure 2.5 Bar.
- No use of water pumps.
- 1,2/4 Mm thickness.
- Hand shower with flexible hose.

TECHNISCHE EIGENSCHAFTEN

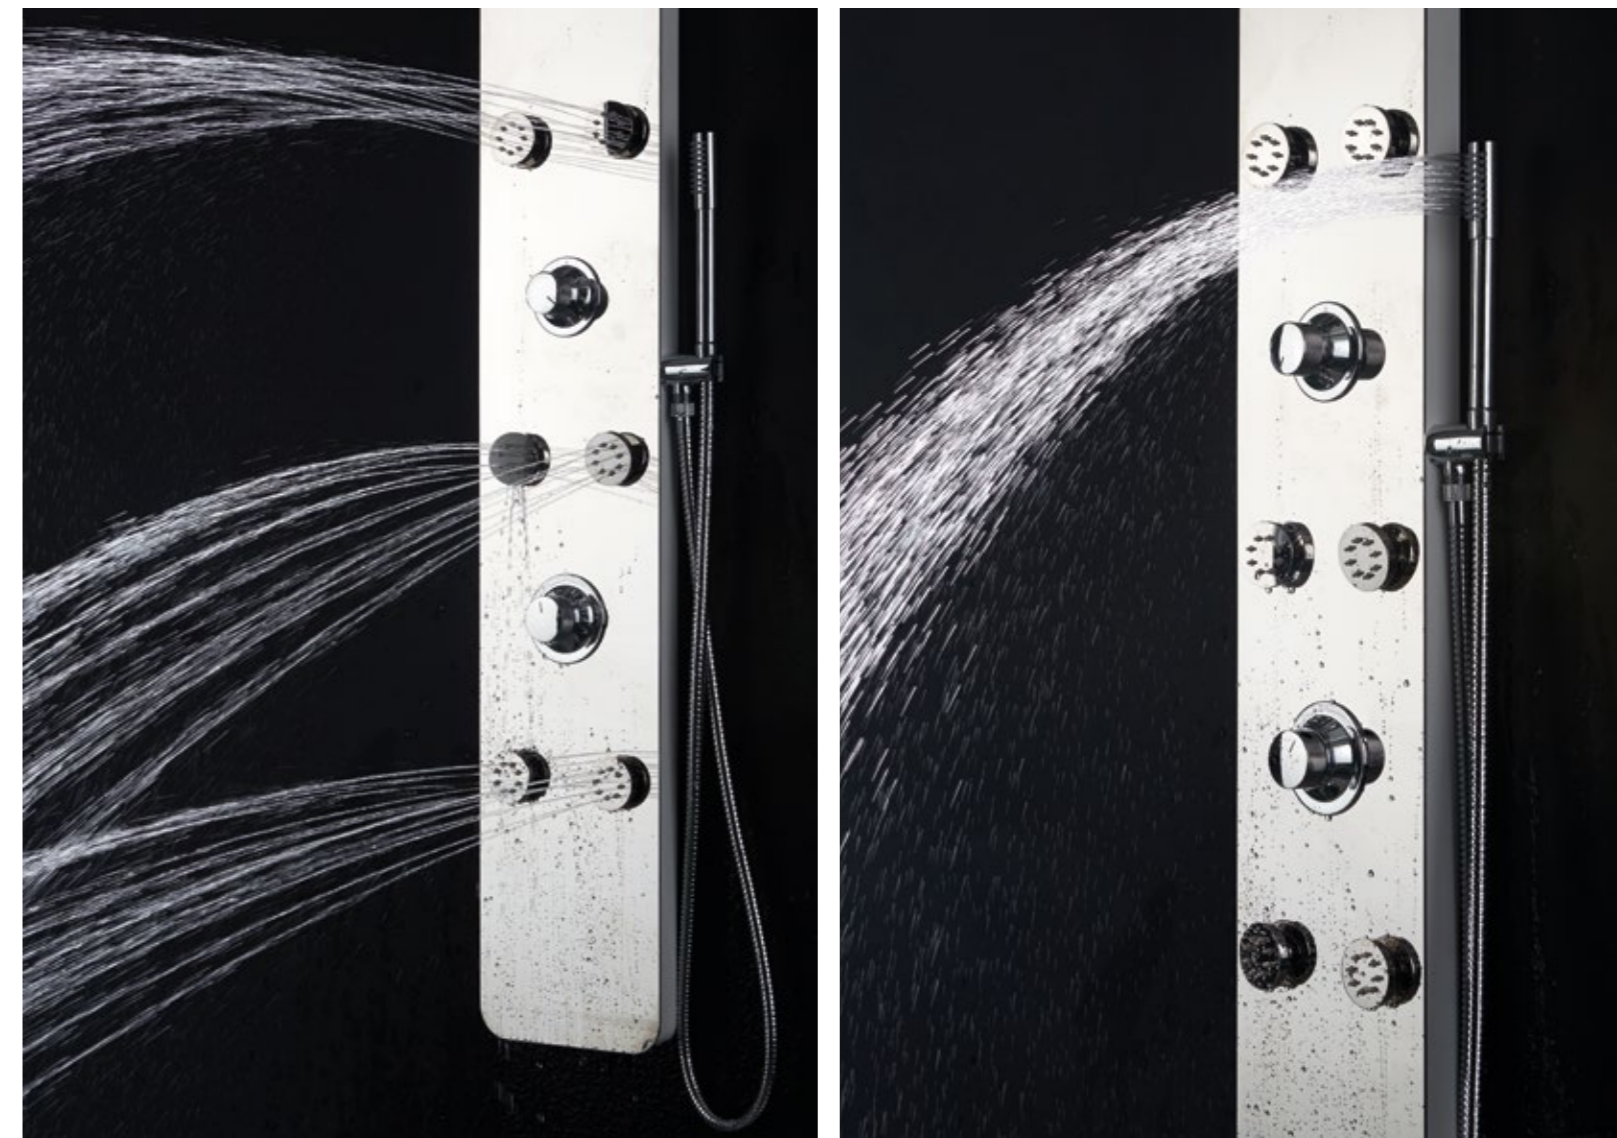

- Aus rostfreiem Stahl 304, Aluminium und Verchromtem Messing 800/1000.
- Verchromte, gebürstete und satinierte Oberflächen.
- Für den Anschluss an das Wassernetz vorbereitet.
- Optimaler Druck 2.5 bar.
- Keine Wasserpumphilfe.
- Stärke 1,2/4 mm.
- Handbrause mit Schlauch.

SPECIFICATIONS GENERALES

- Fabriquées entièrement en acier inoxydable 304, aluminium et laiton chromé 800/1000.
- Texture chromée, brossée et laquée.
- Prêtes pour l'installation au réseau d'eau.
- Pression minimale nécessaire 2.5 bars.
- Aucun besoin de pompes hydrauliques.
- Épaisseur de 1,2 à 4 mm.
- Ensemble douchette et flexible.

1. Entrare nell'area privata del sito Lacus.
2. Selezionare l'articolo (es. cabine doccia, open space, etc.).
3. Selezionare il modello della cabina (es. lsa, losa etc.).
4. Effettuare il download della scheda tecnica in formato pdf.
5. Comparira' un esploso con i singoli componenti.
6. Stampare ed evidenziare il pz. richiesto indicando sempre il codice completo dell'articolo.
7. Inviare la scansione via mail o fax (indicati sul retro della copertina del catalogo).
8. In caso di difficoltà contattare l'ufficio tecnico Lacus.
9. Per cellulari Smartphone scansionare il QR code presente in ogni serie del catalogo

1. Connect to www.lacus.it and enter into your reserved area.
2. Chose the item by category (i.e Enclosure, Open Space, and so on).
3. Chose the item by series (i.e. Series LSA, LOSA and so on).
4. Download the technical file in PDF.
5. A technical drawing with the single components will appear.
6. Print the drawing and clearly mark the demanded part, providing the right code.
7. Scan the drawing and send it back to Lacus.
8. For any problem please get in touch with our Customer Service.
9. For Smartphone phones scan the QR codes on the relavant catalog pages.

1. Verbinden Sie zu der Webseite www.lacus.it und gehen Sie zum reservierten Bereich der Site.
2. Klicken Sie auf die Elementkategorie (z.B Duschkabine, Open Space, u.s.w.)
3. Klicken Sie auf den Serien-Namen (z.B. LSA, LOSA, u.s.w.).
4. Laden Sie die technischen Unterlagen in PDF-Format herunter.
5. Sie werden eine Zeichnung mit allen Ersatzteilen bekommen.
6. Drücken Sie bitte die Zeichnung und markieren Sie erforderlich den Teil. Bitte geben Sie unbedingt seinen Code bekannt.
7. Senden Sie die markierten Zeichnung an Lacus per E-Mail oder Fax zurück. (Daten finden Sie auf dem hinteren Katalogs-Deckel).
8. Bei Bedarf steht Ihnen unser Kundendienst zur Verfügung.
9. Für Smartphone Telephone QR-Codes auf den entsprechenden Katalogseiten scannen.

1. Connectez-vous à la page web www.lacus.it, saisissez votre adresse email et votre mot de passe.
2. Sélectionnez l'article (par exemple «Cabine de douche» ou «Open Space» etc.).
3. Sélectionnez le modèle désiré (par exemple LSA, Losa etc).
4. Téléchargez le dessin technique en PDF.
5. Le plan des composants va apparaître.
6. Imprimez-le et soulignez la pièce détachée nécessaire avec son code identifiant.
7. Envoyez-nous le schéma par e-mail ou par fax (coordonnées indiquées à l'arrière du catalogue).
8. En cas de difficulté, contactez notre service après-vente.
9. Pour les téléphones Smartphones scannez les Codes des pages correspondantes du catalogue.

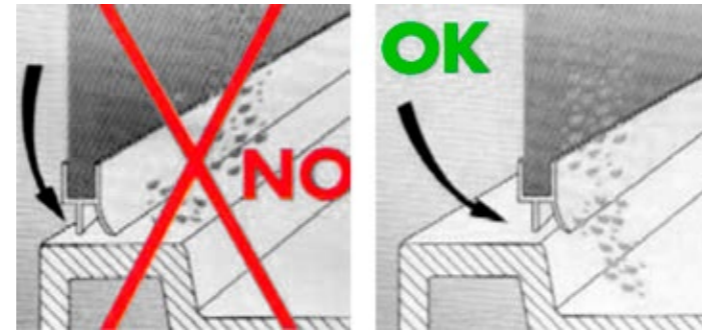

“L'invio delle parti di ricambio prevede l'addebito delle spese di trasporto.”

*Transportation cost will be charged when spare parts are shipped.
Mit der Lieferung von Ersatzteilen werden Versandkosten berechnet.
Pour l'envoi de pièces détachées, des frais de transport vous seront facturés.*

SUGGERIMENTI DI INSTALLAZIONE

1. Per una corretta installazione della cabina doccia.

- 1. For proper installation of the shower enclosure.
- 1. Für die ordnungsgemäße Installation der Duschkabine.
- 1. Pour une installation correcte de la cabine de douche.

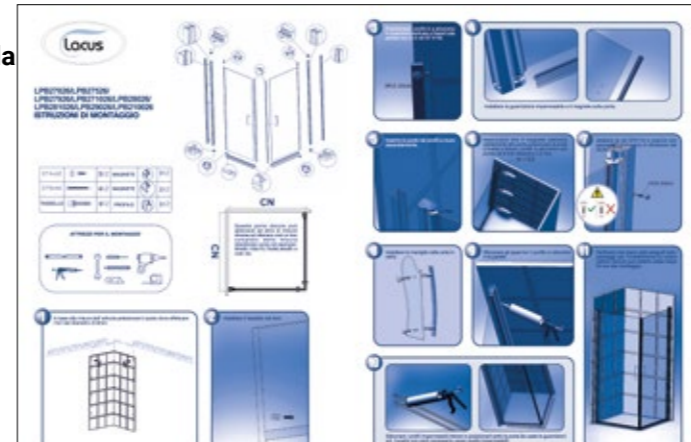

2. Maniglie, pomoli, braccetti e carrucole devono essere avvitati a mano.

- 2. Handles, knobs, arms and pulleys must be tightened by hand.
- 2. Drehknöpfe, Arme und Rollen müssen mit Hand angezogen werden.
- 2. Vissez à la main les poignées, les boutons, les bras et les roulettes.

3. Seguire scrupolosamente le istruzioni di montaggio poste all'interno della scatola o visionabili da QR code posto all'esterno della scatola.

- 3. Follow the installation instructions carefully inside each package or through the QR code outside the package
- 3. Befolgen Sie die Montageanweisungen im Kartons oder vom QR-Code außerhalb des Kartons ersichtlich.
- 3. Suivez attentivement les instructions sur l'installation à l'intérieur de chaque carton ou directement sur le code QR placé à l'extérieur.

4. Eseguire il pre-montaggio per verificare la planarità del piatto doccia ed il fuori squadra dei muri.

- 4. Perform a pre-installation check to verify the flatness of the tray and the out of square of walls.
- 4. Zur Überprüfung der Ebenheit der Duschtasse und des Schräglaufs der Mauer führen Sie Eine Pre-Installation Check.
- 4. Avant l'installation, contrôlez la planéité du receveur et les faux aplombs.

5. Si consiglia di movimentare i colli di peso superiore ai 25 Kg con l'ausilio di 2 persone.

- 5. We recommend to handle packages weighing more than 25 kg in 2 people.
- 5. Es wird empfohlen, Kartons über 25 kg mit 2 Personen zu handhaben.
- 5. Les colis de plus de 25 kg doivent être manipulés par 2 personnes.

6. Verificare preventivamente se il piatto doccia è in "bolla" ed il corretto deflusso dell'acqua dal foro della piletta.

- 6. Check if the shower tray is "on the bubble" and the correct flow of water from the drain hole.
- 6. Überprüfen Sie, ob die Duschtasse "auf der Blase" ist.
- 6. Vérifiez que le receveur est bien d'aplomb.

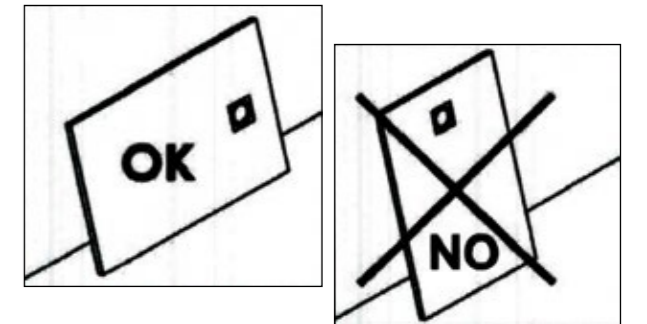

7. Utilizzare una protezione per la superficie del piatto doccia durante la posa in opera.

- 7. Use a protection for the surface of the shower during the laying.
- 7. Beim Verlegen einen Schutz für die Oberfläche der Duschtasse verwenden.
- 7. Protégez la surface du receveur pendant l'installation.

8. ATTENZIONE il piatto doccia è in resina e può essere soggetto a variazioni di planarità se tenuto in magazzino in posizione scorretta.

- 8. CAUTION the shower tray is made of resin and may be subject to variations of flatness if kept in stock in wrong position.
- 8. WARNUNG Duschtasse ist aus Harz hergestellt und kann Abweichungen der Ebenheit unterliegen, ob auf Lager in der falschen Lage aufbewahrt.
- 8. ATTENTION: Le receveur étant en résine, une mauvaise position lors de l'entreposage peut entraîner des problèmes de planéité.

9. Per la posa dei piatti doccia Lacus si consiglia la colla poliuretana.

- 9. For the installation of shower trays Lacus is recommended polyurethane glue.
- 9. Polyurethankleber wird für die Montage der Duschtassen von Lacus empfohlen.
- 9. La colle polyuréthane est recommandée pour l'installation des receveurs Lacus.

10. Colonne doccia: prima di posizionare gli attacchi della colonna doccia prescelta, verificare che la posizione dove verrà collocata, sia compatibile con l'inclinazione del soffione e con la profondità della chiusura doccia.

- 10. Shower columns: Before positioning the connections of the chosen shower column, check that the position in which it will be placed is compatible with the angle of the shower head and the depth of the shower enclosure.
- 10. Duschsäulen: Bevor Sie die Anschlüsse der gewählten Duschsäule positionieren, überprüfen Sie, ob die Position, in der sie platziert wird, mit dem Winkel des Duschkopfs und der Tiefe der Duschkabine kompatibel ist.
- 10. Colonnes de douche: avant de prévoir les raccords de la colonne de douche, s'assurer de l'inclinaison de la douche de tête et de l'ampleur de la cabine de douche.

Chiusure doccia:

1. Mantenere ingrassati i punti di movimento (Carrucole, cerniere).
2. Pulire la superficie cromata con detergenti non acidi o con oggetti che la possono graffiare.
3. Verificare periodicamente che le cerniere, i braccetti e le carrucole siano ben avvitati, utilizzando un cacciavite a mano. (L'avvitatore può causare microfratture nel cristallo che possono provocarne l'esplosione anche ritardata).
4. Detergere i cristalli con l'apposita spatola tergcristalli.
5. Proteggere i cristalli con il Kit LKA 100 di pag. 557.
6. Il trattamento anticalcare è un facilitatore di pulizia non esime l'utilizzatore, dalla necessità di mantenere pulito il cristallo dai residui di calcare.

Shower Enclosures:

1. Keep pulleys and hinges duly oiled.
2. Clean the chrome surface with non-acidic cleaners or other objects which can scratch.
3. Periodically control that the hinges, the arms and the pulleys are tight, using a hand screwdriver. (A drill can cause micro fractures in the crystal that which may crack later).
4. Clean the crystal panels with the wipers.
5. Protect the crystal with LKA 100 kit (page 557).
6. The descaling treatment facilitates cleaning and does not relieve the user from the need to keep the crystal clean from limescale residues.

Duschkabinen:

1. Halten Sie die Rollen und die Scharniere ordnungsmässig geölt.
2. Reinigen Sie die Chromoberfläche mit nicht-sauren Reinigungsmittel oder andere Gegenstände, die zerkratzen können.
3. Überprüfen Sie regelmäßig mit einem Handschraubendreher, dass die Scharniere, die Arme und die Rollen fest sind. (Der Bohrschrauber kann im Kristallglas Mikrofrakturen verursachen, die später das Glas zerbrechen können).
4. Reinigen Sie die Kristallseiten mit den Scheibenwischer.
5. Schützen Sie das Kristallglas mit dem Entkalkungsmittel von Lacus Kit LKA100 (S.557).
6. Die Entkalkungsbehandlung erleichtert die Reinigung und befreit den Benutzer nicht von der Notwendigkeit, das Glas von Kalkrückständen sauber zu halten.

Cabines de douche:

1. Gardez les roulettes et les charnières engrainées.
2. Nettoyez la surface chromée avec des détergents non acides. Evitez tout autre objet pouvant rayer la surface.
3. Vérifiez périodiquement que les charnières, les bras et les roulettes soient bien serrés, en utilisant un tournevis à la main. (La visseuse peut provoquer de minuscules fractures dans le verre pouvant causer sa rupture).
4. Nettoyez et essuyez soigneusement les côtés avec les essuie-glace.
5. Protégez les verres avec le kit anticalcaire LKA100 Lacus à la page 557.
6. Le traitement anticalcaire facilite le nettoyage mais il ne dispense pas l'utilisateur d'enlever les résidus de calcaire des verres.

Piatti doccia:

1. Pulire con detergenti neutri, non acidi, non aggressivi (NO candeggina, NO sgrassatore, etc.) o con oggetti che possono graffiarne la superficie.
2. Periodicamente fare manutenzione e pulizia della piletta.

Steli e Soffioni:

1. Se sono ispezionabili: aprire ogni tre mesi il soffione e detergere la guaina in aceto diluito o in anticalcare diluito.
2. Se non ispezionabili: almeno ogni tre mesi far scorrere all'interno del soffione (dopo averlo opportunamente smontato) aceto diluito o anticalcare diluito.
3. Muovere gli ugelli esterni per togliere il calcare depositato.
4. In caso di acqua molto calcarea praticare più volte al mese la manutenzione suddetta.
5. Pulire la superficie cromata con detergenti non acidi o con oggetti che la possono graffiare.

Shower trays:

1. Clean with detergents, non-acidic, non-aggressive (bleach, etc..) Or objects which can scratch the surface.
2. Periodically perform maintenance and cleaning of the drain.

Accessories and heads:

3. Examenable: open at least once a month the head and clean the sheath in diluted vinegar or descaling.
4. Not examinable: after having properly removed it from the shower pour inside the head at least once a month diluted vinegar or descaling liquid.
5. Move the outer nozzles to remove the limestone deposited.
6. If the water is very hard practice above maintenance several times per month.
7. Clean the chrome surface with non-acidic cleaners. Don't use objects which may scratch.

Duschtassen:

1. 1 Reinigen Sie die Duschtassen mit nicht-sauren und nicht-aggressiven (z.B. Bleichmittel) Reinigungsmitteln oder Objekten die die Oberfläche zerkratzen können.
2. In regelmäßigen Abständen führen sie die Wartung und Reinigung der Ablauf.

Vorbauten und Köpfe:

3. Überprüfbar Köpfe: mindestens Einmal in Monat Kopf aufzumachen und den Mantel durch verdünnten Essig oder Entkalkungsmittel zu reinigen
4. Nicht-überprüfbar Köpfe: nach dem Zerlegen, verdünnter Essig oder verdünntes Entkalkungsmittel durchs Innen laufen zu lassen.
5. Kalkablagerung von Düsen mit den Fingern zu entfernen.
6. Sollte das Wasserhart sein, Die Wartung mehrmals im Monat durchzuführen.
7. Verchromte Oberfläche nur mit nicht-sauren Reinigungsmitteln oder Objekten die die Oberfläche nicht zerkratzen können zu reinigen.

Receveurs:

1. Nettoyez avec des détergents neutres, ni acides, ni agressifs (eau de javel, etc.). Evitez tout autre objet pouvant rayer la surface.
2. Effectuez périodiquement l'entretien et le nettoyage de la bonde.

Les accessoires et les douches de tête:

1. Douches de tête ouvrantes: ouvrez-les au moins une fois tous les trois mois et nettoyez avec du vinaigre dilué ou un produit anticalcaire dilué.
2. Douches de tête non ouvrantes: après avoir démonté la douche de tête, lavez l'intérieur avec du vinaigre dilué ou un produit anticalcaire dilué au moins une fois tous les trois mois.
3. Bougez les buses pour éliminer le calcaire.
4. Effectuez cet entretien plusieurs fois par mois en fonction de la dureté de l'eau.
5. Nettoyez la surface chromée avec des détergents non acides. Evitez tout autre objet pouvant rayer la surface.
6. Mitigeur avec cartouche progressive.
7. Deviateur a trois voies con accento acuto sulla prima e di devia e grave sulla a prima di trois.

IN CASO DI CONTESTAZIONE

PROCEDURA OPERATIVA IN CASO DI CONTESTAZIONE:

- 1) Segnalare il problema/difetto direttamente al responsabile tecnico aziendale o al rappresentante di zona, compilando l'apposito modulo di segnalazione di contestazione.
- 2) Provvedere **SEMPRE** a fornire i dati relativi alla consegna dell'articolo oggetto della contestazione: codice modello, data fornitura, rif. fattura o ddt, tipologia del difetto.
- 3) Allegare **SEMPRE** alla documentazione alcune fotografie che evidenzino la tipologia del difetto. Se si tratta di cabine doccia fornire sempre una fotografia del cristallo ove è posizionata la scitta Lacus, in quanto è riportata la data di produzione della cabina doccia.

La segnalazione deve essere fatta tempestivamente ed esplicitamente sulla bolla di consegna per difetti evidenti e/o imputabili al trasporto (ad esempio rotture di cristalli), ed entro il termine di 8 giorni dalla consegna in caso di vizi/danni occulti che non siano visibili dall'imballo esterno.

Conservare la scatola fino al completamento dell'installazione ed al collaudo del prodotto.

NON SI ACCETTANO RESI DI PRODOTTI PRIVI DI IMBALLO O CON L'IMBALLO COMPROMESSO.

IN CASE EVENT OF DISPUTE:

1 - Communicate the default directly to our Customer service or to your local agent by means of the appropriate notification form.

2 - Provide detailed information concerning the delivery of the defective model: Reference, delivery date, delivery note and invoice numbers, description of the problem.

3 - Attach photos which show the type of problem. If the problem affects the shower enclosure attach please also pictures of the crystal where the LACUS certification mark is, to help us understand the production date.

In case of visible defects and / or transportation problems (i.e. crystal breakage) the report must be written immediately and clearly on the delivery note. In case of hidden defects - not visible from the outside packaging - communication must be made within 8 days.

Packaging must be kept until the end of the installation and test.

RETURNS WITHOUT OR WITH DAMAGED PACKAGING WILL NOT BE ACCEPTED.

IM STREITFALL:

1- Geben Sie die Mitteilung direkt an Kundendienst oder Ihren lokalen Agenten durch die entsprechende Meldeformular bekannt.

2- Geben Sie detaillierte Informationen über die Ablieferung der mangelhaften Modell bekannt: Artikel, Lieferdatum, Lieferschein- und Rechnungsnummer, Beschreibung des Defekts

3- Liegen Sie Fotos bei, die die Art des Fehlers anzeigen. Wenn es sich um Duschkabine handelt, senden Sie bitte auch Bilder des Glasteils worauf die Lacus -Zertifizierungsmarke liegt, um Herstellungsdatum zu verstehen.

Bei offensichtlichen Defekten und / oder Transportproblemen (z.B. Glasbruch) muss die Angabe sofort und übersichtlich auf dem Lieferschein geschrieben werden. Im Fall von versteckten Mängel die nicht von der Außenverpackung sichtbar sind, muss die Mitteilung innerhalb von 8 Tagen angegeben werden.

Verpackungen müssen bis Ende der Installation und des Test gehalten werden.

RETOUREN OHNE ODER MIT BESCHÄDIGTER VERPACKUNG WERDEN NICHT AKZEPTIERT.

EN CAS DE LITIGE:

1) Communiquez le problème ou le défaut directement au service après-vente ou à l'agent de votre zone en utilisant le formulaire ci-dessous.

2) Fournissez des informations détaillées concernant la livraison du modèle défectueux: référence, date de livraison, bon de livraison et facture, type de défaut.

3) Envoyez des photos qui montrent le type de défaut. Pour les cabines de douche, envoyez aussi des photos du verre avec la certification Lacus qui confirme la date de production.

En cas de défauts évidents et/ou de problèmes de transport (par exemple la rupture du verre), écrivez-le clairement sur le bon de livraison. En cas de défauts ou de vices cachés, la communication doit être faite dans les 8 jours suivant la livraison. Conservez l'emballage jusqu'à l'installation et au test du produit.

LES RETOURS DE PRODUITS SANS EMBALLAGE OU AVEC DES EMBALLAGES ENDOMMAGÉS NE SERONT PAS ACCEPTÉS.

CONDIZIONI GENERALI DI VENDITA

- A. I prezzi del presente listino, espressi in Euro, s'intendono per merce franco nostro magazzino di Sassuolo, IVA esclusa.
- B. Gli ordini, validi solo se trasmessi per iscritto, ed evadibili anche parzialmente, si intendono confermati ed accettati ai prezzi ed alle condizioni in vigore il giorno di ricezione. In caso contrario l'ordine sarà definitivo solo alla ricezione della nostra conferma d'ordine controfirmata per accettazione.
- C. L'eventuale richiesta di annullamento di un ordine non comporta la sua automatica accettazione, infatti la ditta produttrice comunicherà per iscritto al cliente eventuali addebiti derivati dalla richiesta e solo dopo la ricezione della copia controfirmata riterrà nullo l'ordine.
- D. I prezzi indicati nel presente listino includono l'imballo. Nel caso in cui, per garantire l'integrità del materiale durante il trasporto si rendesse necessario l'imballo su pallets, questo verrà fatturato al costo.
- E. Gli ordini pervenuti durante la settimana saranno raggruppati in un unico ordine, salvo esplicita richiesta di pronta evasione.
- F. I tempi di consegna dei prodotti ordinati si ritengono con media di 4/6 settimane. Nel conteggio dei tempi di consegna non sono comprese le settimane di chiusura per ferie aziendali (Agosto) o per Natale. Evasione di prodotti con termini precedenti costituiscono titolo preferenziale.
- G. Nessuna richiesta di risarcimento danni sarà accettata per il mancato rispetto dei tempi di consegna, forniti, dove richiesto, a puro titolo indicativo e non tassativo.
- H. Nel caso di mancato pagamento alla scadenza, secondo condizioni concordate inizialmente e tacitamente rinnovate di volta in volta se non diversamente confermate saranno addebitate le eventuali spese ed interessi bancari nella misura del 2% mensile. Inoltre LACUS si riserva il diritto di sospendere ogni altra consegna, senza necessità di preavviso, fino all'avvenuto pagamento di quanto dovuto.
- I. Premesso che come stabilito dall'art. 1510 del c.c., la merce viaggia sempre a rischio e pericolo del committente, la ditta produttrice informa che non accetterà contestazioni per danni causati dal trasporto ed invita pertanto il destinatario a contestare alla ricezione eventuali anomalie al vettore, indicandola sulla bolla di consegna.
- L. LACUS, nella costante ricerca del miglioramento della propria gamma, si riserva il diritto di modificare senza preavviso i dati e le caratteristiche dei prodotti contenuti nel presente listino.
- M. Quanto sopra esposto si intende integralmente accettato con la trasmissione dell'ordine. Qualora sorgessero controversie sarà competente il Foro di Modena.
- N. Garanzia trattamento anticallcare LKA 100 - in caso di contenzioso accertato sarà riconosciuto un kit in omaggio. La garanzia decade in caso di non corretta o parziale applicazione.

GENERAL SALES CONDITIONS

- A. Prices are expressed Euro, and are meant ex-works Sassuolo.
- B. Orders are valid only in the written form and are meant confirmed and accepted to the prices and conditions in force during the day of receipt. Otherwise, the order will be considered valid only after receipt of LACUS order confirmation countersigned for acceptance.
- C. Possible request of order cancellation does not automatically imply its acceptance: LACUS will inform the customer in writing about eventual charges. The order will be considered as cancelled only after receipt of countersigned copy.
- D. Prices include packaging. Where loading on pallets is needed, relative costs will be invoiced.
- E. Orders received during the week will be gathered in a single production order, exception made for explicit request of immediate delivery.
- F. Delivery times from the date of order registration: on the average within 4/6 weeks. Summer (August) and Christmas vacations are not included in the calculation of a.m. delivery times.
- G. LACUS will not accept penalties in case of delayed deliveries. Delivery times are indicative and not binding.
- H. H) In case of delayed payment, according to conditions agreed at the moment of order and tacitly renewed from time to time unless otherwise confirmed, eventual bank fees and interests will be charged in the extent of 2% monthly. LACUS reserves the right to stop any further delivery, without notice, until the due amount has been settled.
- I. Goods are always shipped at buyer's own risk and danger, according to art. 1510 of C.C. (civil code). LACUS will not accept claims due to transport damages, so the receiver is invited to check and to object eventual damages to the carrier at the time of delivery, by indicating them on the delivery documents.
- L. LACUS is constantly trying to improve its own production; this means that LACUS reserves the right of changing data and characteristics of its products without notice.
- M. What above described is meant wholly accepted by order transmission. Eventual disputes are to be settled through the Forum of Modena.
- N. Descaling treatment LKA100 guarantee: Once a complaint is established, 1 kit of treatment will be shipped free of charge. Guarantee is considered as lapsed whenever the treatment is partially or incorrectly applied.

ALLGEMEINE VERKAUFSBEDINGUNGEN

- A. Die hier aufgeführten Euro-Preise verstehen sich ab Lager in Sassuolo (MO), exkl. MwSt.
- B. Bestellungen sind nur in schriftlicher Form gültig und auch partiell auslieferbar; die Bestellungen verstehen sich automatisch bestätigt und akzeptiert im Moment des Warenerhalts gültigen Preisen und Konditionen. Andernfalls ist eine Bestellung nur gültig ab Erhalt einer gegengezeichneten Auftragsbestätigung unsererseits.
- C. Das eventuelle Stornieren einer Bestellung ist nicht automatisch als akzeptiert zu verstehen; tatsächlich wird der Hersteller dem Kunden eventuell anfallende Kosten schriftlich mitteilen, und nur infolge Rücksendung dieser vom Kunden gegengezeichneten Mitteilung, ist die Bestellung effektiv storniert.
- D. Die hier aufgeführten Preise beinhalten die Verpackung. Im Falle, dass zur Wahrung der Unversehrtheit des Materials während des Transports eine Verpackung auf Palette notwendig sein sollte, so wird diese zum Anschaffungspreis verrechnet.
- E. Die innerhalb einer Woche eingehenden Bestellungen werden zu einem einzigen Auftrag zusammengefasst, es sei denn, es wird ausdrücklich eine sofortige Auslieferung angefragt.
- F. Die Lieferzeiten der bestellten Artikel belaufen sich im Mittel auf vier bis sechs Wochen. In der Berechnung der Lieferzeiten sind die Betriebsferien im August und zu Weihnachten nicht eingeschlossen. Die Auslieferung von Waren vorhergegangener Bestellungen wird vorrangig behandelt.
- G. Die Firma akzeptiert keinerlei Anforderungen auf Schadenersatz wegen Nichteinhaltung der Lieferzeiten, welche nurauf Anfrage genannt werden und einen reinen Richtwert darstellen, der nicht bindend ist.
- H. Sollte keine fristgerechte Zahlung eingehen, werden gemäß der zu Beginn vereinbarten Bedingungen, welche sich automatisch erneuern, wenn nichts anderes vereinbart wird, eventuelle Mahnkosten sowie Bankzinsen in Höhe von 2% pro Monat berechnet. Weiterhin behält sich LACUS das Recht vor, jegliche weitere Lieferung einzustellen, auch ohne Vorankündigung, und bis zum Eingang der geschuldeten Beträge.
- I. Gemäß Art. 1510 des Codice Civile reist die Ware immer auf Gefahr des Auftraggebers; der Hersteller weist daraufhin, dass er keine Beanstandungen aufgrund von Transportschäden akzeptiert und rät daher dem Empfänger; eventuelle Anzeichen auf Beschädigung der Ware beim Transport sofort dem Transporteur zu melden und auf dem Lieferschein zu vermerken.
- L. Da der Hersteller LACUS kontinuierlich an der Verbesserung seiner Produktpalette arbeitet, behält er sich das Recht vor; auch unan gekündigt die technischen Daten und Eigenschaften der hier aufgeführten Produkte zu ändern.
- M. Die oben aufgeführten Angaben verstehen sich bei Eingang einer Bestellung als in ihrer Gesamtheit akzeptiert. Im Falle einer Rechtsstreitigkeit ist der Gerichtsstand Modena zuständig.
- N. Entkalkungsbehandlung LKA 100 Garantie: Im Streitfall wird 1 Kit frei gesandt. Soll die Behandlung Teil- oder nicht richtig angewandt werden, ist die Garantie annulliert.

CONDITIONS GENERALES DE VENTE

- A. Les prix tarif HT sont en euro départ notre usine de Sassuolo.
- B. Les commandes, envoyées par écrit, sont confirmées aux prix tarif en vigueur le jour de leur envoi. Dans le cas contraire, la commande sera définitive si acceptée par le client.
- C. L'annulation d'une commande doit être confirmée par Lacus.
- D. Les prix tarif prévoient l'emballage. L'emballage sur palette, si nécessaire, sera communiqué et facturé.
- E. Les commandes de la semaine seront regroupées et expédiées ensemble.
- F. Les délais de livraison sont en moyenne de 4/6 semaines. Le mois d'août et la période de Noël sont exclus de cette moyenne.
- G. Lacus ne sera tenue à aucune indemnisation pour le non-respect des délais de livraison qui ne sont qu'indicatifs et non péremptoirs.
- H. En cas de retard de paiement, des pénalités (2% mensuel) seront appliquées et toute livraison sera bloquée jusqu'au règlement total de la dette.
- I. Les marchandises voyagent aux risques et périls du client comme précisé dans l'article 1510 du c.c. Aucune contestation ne sera acceptée en cas de dommages survenus durant le transport. Le client est prié de contrôler la marchandise et de signaler au transporteur tout dommage sur le bordereau de livraison.
- L. Lacus, recherche l'amélioration constante de ses produits et se réserve le droit de modifier, à tout moment et sans avis préalable, les caractéristiques techniques des éléments montrés dans ce catalogue. L'entreprise décline toute responsabilité pour d'éventuelles inexactitudes dans le présent catalogue.
- M. Ce qui précède est accepté lors de la commande. Le Tribunal de Modène sera seul compétent pour tout litige.
- N. Garantie du traitement anticallcaire LKA 100 – pour tout litige confirmé, un kit sera fourni gratuitement. La garantie est nulle si le traitement n'a pas été fait correctement.
